business analysis, control and project control
in technical and ICT environments

MS Excel / Access / VBA expert and teacher

Profile

- ✓ **curious** to "how things work", to backgrounds, to relationships and to developments.
- ✓ like to **provide insight** and applicability to data, methods and techniques, making them really matter and helpful.
- ✓ will **easily blend into new environments**, feel at home in hectic ones, and easily learn new approaches and techniques.
- ✓ go for the **development of people, processes and organizations**, and give and accept responsibilities in this.
- ✓ realize **sustainable changes** and **lasting relationships**, with the **focus on the client** (and on the client's clients).

I help organizations ...

- ✓ ... **to master and to answer for corporate and project risks (time, money, ...).**

Practically, this means leading, advising on, setting up and running business control and project management, particularly in technical environments like: Construction, Infrastructure, Engineering, energy, Telecom, IT development.

- ✓ ... **to use (their own) data to improve and develop their products and processes.**

Practically, this means constructive critical approaches to BigData, Business modeling, Statistics, Analysis, Quality assurance, Continuous learning and improving.

- ✓ ... **to apply Excel and alike tools in effective, sustainable and low-risk ways.**

Practically, this means a mix of audits, training, information, publication.

I'm looking for ...

- ✓ ... a job where finance, technology, projects and change come together. Success guaranteed.
